The rejection/s of the previous action are incorporated herein by reference.

Your arguments were considered with the utmost care. After 7 pages, I still was unable to find an argument pointing out the supposed error in the examiner's conclusion of obviousness under 35 U.S.C. Sec. 103. Where was there an argument stating that the combination was not suggested? Where was the argument that even if there were a suggestion to combine the teachings, that the combination would not teach the claimed limitations in combination? It appears these arguments were not clearly articulated for want of evidence to support them. Instead, much by way of obfuscation of the issues germane to the elected claims was advanced. *for example, unclaimed limitations were argued.* Having found neither of these pertinent arguments made, and if made, not persuasive on the ultimate conclusion of non-obviousness, I am compelled to make this rejection of claims 5 - 6 FINAL. **THIS**

ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
